1.1. Philosophy

Essent is committed to insuring quality loans that make sense for everyone: lenders, investors, and home buyers alike. Essent offers mortgage insurance on loans originated as "A" quality business. Essent does not insure A-minus or limited documentation loans. There are certain requirements that must be met for loans to be eligible for Essent mortgage insurance due to the risk they present. Our commitment to you and the housing finance industry is a responsibility we take seriously, as we work to encourage fair lending, open new markets, and expand our insurance services.

In the event that Essent guidelines are silent, when the loan is being delivered to Fannie Mae, Fannie Mae standard guidelines are to be followed, and similarly, if final delivery will be to Freddie Mac, Freddie Mac standard guidelines are to be followed (Agency standard as outlined in the Agency Selling Guides available to all lenders without the need for a lender variance or amendment to the lender's master agreement).

We expect that Essent's underwriting guidelines will be followed in most cases. Exceptions to the product eligibility requirements as outlined within the applicable Product Eligibility Matrix in Section 2 are not permitted, and require an underwriting submission to Essent for review and approval. For all other situations whereby a loan fails to meet Essent guidelines, the loan may be reviewed for any compensating factors that may warrant an exception to the underwriting guidelines. Any compensating factors should be meaningful and well documented.

1.2. Automated Underwriting Systems (AUS)

Essent will insure loans that are manually underwritten or are underwritten by an approved automated underwriting system. Prudent underwriting and reasonableness tests should be applied to all loans processed through an AUS. AUS loans submitted for underwriting are carefully evaluated and all loan factors are analyzed and considered prior to rendering an underwriting decision. The credit report used by the Agency AUS to determine its recommendation or risk classification is the credit information that the lender must use when determining the loan representative FICO score for pricing or eligibility.

1.3. Approved Agency Automated Underwriting Systems (AUS) - Fannie Mae's Desktop Underwriter® (DU) / Freddie Mac's Loan Prospector® (LP) Recommendations

Provided the loan meets the product eligibility criteria of the applicable Essent Product Eligibility Matrix (as outlined in Section 2) and the minimum documentation standards outlined below, Essent does not require additional guideline overlays beyond the following items for loans that receive a Desktop Underwriter® "Approve/Eligible" or Loan Prospector® "Accept/Eligible" recommendation:

- All FL Condos: Non-delegated submissions; Primary Residence; Purchase; Max. 90% LTV/CLTV; Min. 720 FICO; Max. 41% DTI
- Manufactured Housing ineligible
- Non-Permanent Resident Aliens: Refer to Section 3.1.
- Borrower Contributions: Refer to Section 2.1.1

Minimum income/asset documentation requirements as per the DU findings or LP feedback certificate are permitted. Refer to Section 3.12. for Reserve Requirements. All DU findings and LP feedback certificate conditions must be satisfied and the DU/LP decision must be present in the file.

Appraisal methodology: Essent requires appraisal reports completed on the appropriate form as denoted in Section 5.1. with interior/exterior inspections and all required photos, exhibits, and addendums. Essent does not accept valuations based on AVMs or BPOs.

As the versions of both DU and LP are updated, Essent will complete a careful evaluation for acceptance which may result in subsequent updates to the eligibility requirements as stated within this Underwriting Manual.

1.4. Other Proprietary Automated Underwriting Systems (AUS)

Essent does not automatically consider recommendations from automated underwriting systems as eligible to be insured, however, Essent does take the recommendation into consideration as a tool to identifying risk attributes of the file. The loans must fit Essent's guidelines as published in this underwriting manual.

1.5. Delegated Underwriting Authority

Essent's counterparties approved for delegated underwriting authority may be subject to additional requirements under the Delegated Underwriting Agreement. Refer to Section 11.4. for Non-Delegated Underwriting Submission Requirements.

The following are ineligible under Delegated Underwriting Authority:

- Assumptions/Partial releases
- Properties that were acquired by the seller less than 180 days from the date of the loan application
- Condominiums in the state of Florida
- Loan amounts > FHFA maximum loan limits

03 Borrower Eligibility Requirements

The credit profile is one of the most critical indicators of the borrower's willingness and ability to repay debt. A thorough analysis of the borrower's income, assets, liabilities, credit history and property are required. In some instances, Essent's guidelines expand or differ from Agency guidelines and in such instances, the provisions of this underwriting guide control those differences.

For example: 680, 700, 680 - 680; 700, 680, 700 - 700). A minimum of two valid credit scores must be obtained for each borrower in order to calculate the individual representative FICO score

9.3. Incomplete/Denied Applications

If credit or insurance is denied on the basis of information provided by the consumer reporting agency, the Fair Credit Reporting Act (FCRA) requires that the borrower be given a notice which identifies the consumer reporting agency and includes a statement of the applicant's rights under FCRA. In the event the counterparty has approved a loan and Essent has denied the mortgage insurance coverage, Essent will send the Statement of Denial to the applicant directly. When Essent is required to deliver the notice to the applicant (as required under FCRA), a combined Equal Credit Opportunity Act (ECOA) Statement of Denial and FCRA notice will be sent directly to the applicant and a copy sent to the counterparty.

10 Premium Plans

10.1. Premium Plans

Responsible underwriting to determine eligibility for mortgage insurance through Essent requires a thorough evaluation of many elements relating to a proposed home financing including credit history, loan type, loan purpose, occupancy status, property appraisal, loan-to-value ratio, debt service capacity, and other factors known to influence the likelihood of repayment on a mortgage loan. In developing premium plans and determining premium rates, Essent seeks to take these factors into account and establish plans, rates, and rate adjustments that provide fair compensation to Essent for providing insurance against the risk of loss in the event of borrower default on a specific mortgage.

The premium rate applicable to an insured mortgage is based on the rate in effect on the date Essent receives the initial mortgage insurance application. If loan data submitted to Essent is not correct and the loan receives an inappropriate premium rate, Essent reserves the right to apply the correct premium in accordance with the actual data and charge the submitting lender for any premium difference. If any material changes in loan eligibility factors or loan data occur prior to closing, the loan must be re-qualified and re-priced to current published rates.

The following premium plans are available from Essent to meet the various needs of borrowers who require mortgage insurance:

1. Annual premium plans: the first year's premium is paid at loan closing and subsequent renewal premiums are paid annually
2. Monthly premium plans: the first month's premium is paid at loan closing and subsequent renewal premiums are paid monthly with each monthly mortgage payment
3. Deferred monthly premium plans: instead of being paid at loan closing, the first month's premium and subsequent renewal premiums are paid monthly with each monthly mortgage payment
4. Single premium plans: a one-time, single premium is paid at closing and provides coverage until the loan amortizes to 78% of the original value
5. Financed premium plans: single premiums may be financed; eligibility guidelines are based on net CLTV and rates are based on net LTV; net CLTV and net LTV are calculated excluding the amount of premium financed into the loan amount
